# **BIODIVERSITY FRAMEWORKS & STRATEGY**

**FROM ISO 17298 TO BEST PRACTICE**

**ONE HOUR**

# COURSE OUTLINE AND DETAILS

🕒 1 hour (1 CPD Point & Certificate received within 28 days of the course)

💻 Microsoft Teams or In-Person

## What is the Aim?

The aim of this course is to help professionals understand how biodiversity integrates into corporate sustainability through frameworks such as ISO 17298, TNFD, and SBTN. It equips participants with the knowledge and practical tools to embed nature-positive strategies into business operations, governance, and supply chains.

## Course Agenda

- Introduction & Context
- Understanding Biodiversity and Natural Capital
- Globally and Regulatory Frameworks
- From Obligation to Opportunity
- Applying ISO 17298 with SCBF: Strategy, Operations & Supply Chains
- Tools, Innovations & Business Benefits
- Key Takeaways

## Learning Objectives

- To understand what biodiversity is and why it's important for businesses to report on it.
- Identify key global frameworks driving biodiversity accountability (CSRD, TNFD, SBTN, GBF, GRI, Nature Positive Goals, etc.)
- Explore how to build a science-based Corporate Nature Strategy aligned with regulation and investment priorities.
- Discover practical steps to move from ambition to action through Nature Positive Pathways and site-level interventions.
- Learn how modular biodiversity services can support your journey toward a nature-positive future through discussion of a ground-breaking case study.
