

# MYTH BUSTING EMBODIED CARBON CPD COURSE

ONE HOUR

# COURSE OUTLINE AND DETAILS

🕒 1hr15mins (1 CPD Point)

💻 Microsoft Teams or In-Person

## What is the Aim?

The aim of this course is to explore the key distinctions between embodied carbon and life cycle carbon, and uncover common misconceptions surrounding product carbon footprints.

## Course Benefits

At the end of this course you will have an understanding of the area of expertise required:

- Understand Embodied Carbon
- Understand Lifecycle Carbon
- Greenhouse Gas Theory
- Q&A session at the end to resolve any queries
- Receive a CPD certificate within 28 days of completing the course

## Course Content

- Understand the basics of greenhouse gas theory and how it contributes to Embodied and Lifecycle Carbon Emissions
- Understand the core differences between Embodied Carbon and Lifecycle Carbon
- Develop an understanding of misconceptions around product Carbon Footprints
- Gain an appreciation for the exclusions of Embodied and Lifecycle Carbon Assessments
