# **SUPPLY CHAIN BIODIVERSITY FOOTPRINT COURSE**

**2 HOURS**

# COURSE OUTLINE AND DETAILS

 2 Hours

 Microsoft Teams Or In-person

## Overview

This comprehensive course is designed to equip you with the knowledge and tools necessary to understand and mitigate the impact of supply chain activities on biodiversity.

By addressing the key areas outlined below, organisations can develop robust sustainability plans that not only reduce their carbon footprint but also actively contribute to biodiversity conservation and enhancement. Understanding the interconnected impacts of carbon and biodiversity is crucial for creating comprehensive and effective environmental strategies.

## Course Agenda

At the end of this course you will have an understanding of:

- International Frameworks and Regulations
- What is Biodiversity Loss and What Causes it
- Why Organisations Need to Understand their Impacts on Biodiversity and Carbon Emissions
- What is Supply Chain Biodiversity Footprint and How Does it Help Organisations and Biodiversity
- Mitigation Strategies and How to Implement Them Aligning With Nature Positive Goals
